

AVLOKAN 2026 · Day II Event

TREASURE TRAVERSE

A Surveying-Based Treasure Hunt

Navigate the historic campus of B.I.T. Sindri using surveying techniques, riddles, coordinates, and cryptographic clues. Traverse 5 checkpoints, collect tokens, decode the final message — and claim the treasure.

5 Teams	5 Members Max	5 Checkpoints	5 Cheat Sheets
Max. per event	per team	across campus	to collect & decode

ABOUT THE EVENT — TREASURE TRAVERSE

Treasure Traverse is a flagship surveying-based outdoor adventure event at **AVLOKAN 2026**, the annual technical festival of the Association of Civil Engineers (ACE), Birsa Institute of Technology Sindri. This event is crafted exclusively for the second day of the festival and challenges participants to apply real civil engineering surveying knowledge — bearings, coordinates, latitude/longitude, and spatial reasoning — in a live campus environment.

Teams traverse the historic B.I.T. Sindri campus navigating from one checkpoint to the next using directional clues, riddles, cryptographic codes, and physical tasks. Every checkpoint tests a different skill — from civil engineering dictation and MCQ, to solving latitude/longitude equations, decoding ASCII messages, and physical challenges. The team that collects all 5 tokens, decodes the final message, and reaches the Civil Engineering Garden first — wins.

PARAMETER	DETAILS
Event Name	Treasure Traverse — A Surveying-Based Treasure Hunt
Festival	AVLOKAN 2026 — Day II (After Hackathon)
Organiser	ACE — Association of Civil Engineers, Dept. of Civil Engineering, B.I.T. Sindri
Teams	5 Teams · Maximum 5 members per team · Unique team name required
Route	Civil Dept (Start) → Alumni House → Canteen → 96 Pavilion → HK Pond → Civil Garden (End)
Tracking	Live WhatsApp location sharing by Team Leaders (active data connection mandatory)
Tools Allowed	Passwords, mobile phones, Google Maps, and AI tools (for navigation/decoding only)
Cheat Sheets	5 cheat sheets per team (CS-1 to CS-5 Bonus Card). Losing any = disqualification risk

B.I.T. Sindri Campus — Checkpoint Locations

B.I.T. Sindri Campus (Aerial View)

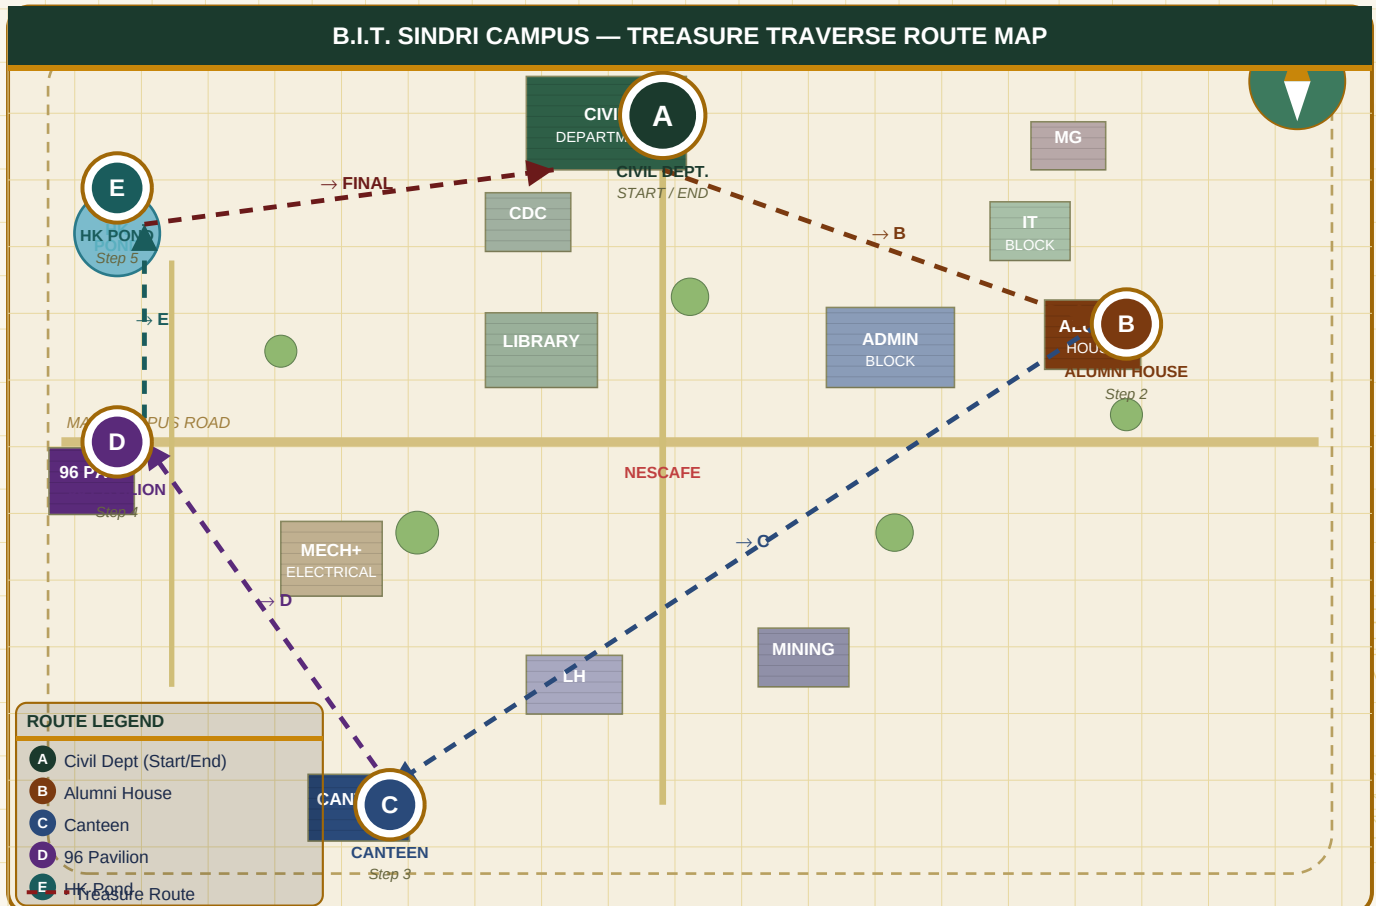

Near 96 Pavilion Area (Step 4)

CAMPUS ROUTE MAP — CHECKPOINT NETWORK

The map below shows the official Treasure Traverse route across the B.I.T. Sindri campus. All five checkpoints are fixed. Different teams start with different bearing directions but ultimately converge at the same checkpoints in varying order. The Civil Engineering Department Garden is the final destination for all teams.

CP	Location	Activity	Item Received
A	Civil Department Gate — Start Point	Pick Cheat Sheet 1 (bearing direction). Receive Bonus Card (CS-5).	CS-1 + Bonus Card (CS-5)
B	Alumni House	Civil Engineering dictation / Oral MCQ (2–5 Qs). No phone use.	CS-2 + Journal Thread
C	Canteen Area	Search wall for pasted notice. Password exchange with senior inside canteen.	CS-3 + Gitti (Stone)
D	96 Pavilion	Decode riddle. Complete assigned physical task (sketch/leaves/parade/etc.)	CS-4 + Chalk piece
E	HK Pond	Message senior on given number. Open password-protected PDF. Dig for buried material.	Buried Material + cross mark with chalk

FINAL

Civil Engineering Garden
— End Point

Present all items. Password exchange with senior (BOOM-BOOM / WIN-WIN). Sign & selfie.

VICTORY ■

THE JOURNEY — STEP-BY-STEP EXECUTION

Each team follows a unique bearing direction from the starting point, arriving at the same set of checkpoints but in different sequences to ensure no two teams follow the identical path. At each checkpoint, teams must complete specific tasks before receiving the next clue. Losing any cheat sheet or token may result in disqualification.

STEP 1 A

CHECKPOINT A — CIVIL ENGINEERING DEPARTMENT · The Start

Items at this checkpoint:

- Cheat Sheet 1 (CS-1) — bearing/direction to first location
- Bonus Card (CS-5) — the Master Key for the entire journey

Task / Challenge:

1. Team leaders draw one card from the box (CS-1). The first letter of the starting bearing direction is unique for each team (e.g. Team 1: N 80°E, 50m).
2. At the start, seniors use a marker to write each team's identity letter on the nails of all team members including the leader.
3. Activate WhatsApp live location sharing — team leader must keep this active throughout.
4. Move in the bearing direction shown on CS-1 to reach your first designated checkpoint.

Next Clue: CS-1 shows bearing & distance to first checkpoint (e.g., N 80°E — 50m). Use compass / Google Maps to navigate.

Reward: CS-1 handed to senior at first checkpoint. Receive CS-2 as you proceed.

STEP 2 B

CHECKPOINT B — ALUMNI HOUSE · The Senior's Catch

**Items at this checkpoint:**

- Cheat Sheet 2 (CS-2) — contains next location as latitude/longitude equations
- Journal Thread — must be tied to team leader's wrist

Task / Challenge:

1. Senior provides an empty page. Teams must correctly write civil engineering dictation words **OR** answer an oral MCQ test (2–5 questions) related to civil engineering.
2. If a mistake is made or a phone is used during this test, CS-2 will NOT be given. Internal discussion within the team is permitted.
3. CS-2 contains the next location encoded as lat/long equations to solve: Lati: $5x - 118275483.5 = 0$ | Longi: $2y - 172949939 = 0$
4. Solve for x and y to get coordinates, then use Google Maps to find the location.

Next Clue: Solve lat/long equations on CS-2 to find the next checkpoint location. Senior retains CS-1.

Reward: CS-2 (lat/long clue) + Journal Thread tied to leader's wrist.

STEP 3 C

CHECKPOINT C — CANTEEN · Password & Search

Items at this checkpoint:

- Cheat Sheet 3 (CS-3) — contains a riddle pointing to 96 Pavilion
- Gitti (small stone) — must be kept safely by the team

Task / Challenge:

1. Teams must physically search the area around the Canteen walls for a pasted notice (no hints provided). The notice contains a phone number to call/message.
2. Once found, contact the senior sitting inside the Canteen via the provided number. The senior will ask for your team's password.
3. Password exchange example — Team says: *alpha x y z* | Senior responds: *O³ gamma Delta*. Both sides confirm passwords to proceed.
4. Hand over CS-2 to the senior in exchange for CS-3 and the Gitti stone.

Next Clue: CS-3 contains a riddle: 'Between Knowledge and Nature, there lies a pavilion of pride, New yet timeless, Open yet sheltered!' — Decode to find the next checkpoint.

Reward: CS-3 (riddle to 96 Pavilion) + Gitti (small stone token). Senior retains CS-2.

STEP 4 D

CHECKPOINT D — 96 PAVILION · Riddle & Physical Labour

Items at this checkpoint:

- Cheat Sheet 4 (CS-4) — instructions to reach HK Pond and message the senior
- Chalk piece — to be used at HK Pond

Task / Challenge:

1. Decode riddle from CS-3 — the answer is the '96 Pavilion'. Navigate there immediately.
2. The senior stationed there is pre-informed via WhatsApp group. Senior will call the team in a firm manner and ask for their branch as confirmation.
3. Teams **cannot say 'No'** to any assigned task. Works assigned (fixed for all teams):
4. (i) Prepare a top-view sketch of the park area | (ii) Collect 10–15 fallen leaves | (iii) Perform a parade / other assigned task
5. After completing the assigned work, hand over CS-3 to the senior.

Next Clue: CS-4 says: 'Go to the pond (HK) and message 8709512826. Take the help of your bonus card to unlock the next level.'

Reward: CS-4 (instructions to HK Pond) + Chalk piece. Senior retains CS-3.

STEP 5 E

CHECKPOINT E — HK POND · The Digital Lock

Items at this checkpoint:

- Password-protected PDF (received from senior after messaging)
- Buried material to collect from specific tree/location

Task / Challenge:

1. Message the number on CS-4 (8709512826). The senior at the final destination sends a password-protected PDF containing an image of a specific tree at HK Pond.
2. Use the Bonus Card (CS-5) to decode the PDF password. CS-5 contains two texts — one simple and one coded. The simple text gives the PDF password (e.g., 'PASSWORD'). Note: synonyms are intentional misdirection (PASSCODE, ACCESS CODE, SECURITY, etc.).
3. The PDF image shows a specific tree. Teams must dig below that tree using available tools (sticks, hands, rod) and collect the buried material (page, petals, leaf, brick, etc.).
4. After collecting the material, mark a cross (×) with your chalk at that spot. Other teams arriving later must search their own location — they will see your mark.
5. Decode the cryptographic message on CS-5 to find the final destination:
6. $f(x) = \Sigma[\text{ASCII}(X_{\blacksquare})]$ where $X_{\blacksquare} \in \{82, 101, 97, 99, 104, 32, 116, 104, 101, \dots\} \rightarrow$ Decode the ASCII values to get the final location name.

Next Clue: ASCII decoded message: 'Reach the garden of Civil Engineering department BIT Sindri.'

Reward: Buried material + chalked cross mark. Proceed immediately to the Civil Engineering Garden.

STEP 6 FINAL

CHECKPOINT FINAL — CIVIL ENGINEERING GARDEN · The Final Goal

**Task / Challenge:**

1. Arrive at the Civil Engineering Garden with ALL collected items: (i) Nail marks on team members | (ii) Journal Thread on leader's wrist | (iii) Gitti (stone) | (iv) Chalk piece | (v) Buried material | (vi) Remaining cheat sheets
2. Exchange passwords with the waiting senior: Senior says: **BOOM-BOOM** | Team responds: **WIN-WIN** → Password confirmed.
3. Senior checks a master list and ticks off all items. Any missing item = team is put on hold.
4. If all items are present and passwords confirmed: team leader signs, senior takes a **winning selfie** with the entire team — the first team to complete all steps wins!

Reward: VICTORY! First team to complete all steps and present all items wins the Treasure Traverse.

CHEAT SHEET	OBTAINED AT	CONTENT / PURPOSE	PHYSICAL TOKEN
CS-1	Civil Dept (Start)	Bearing direction to first checkpoint (e.g., N 80°E, 50m). Unique per team.	—
CS-2	Alumni House	Lat/Long equations to solve for next location coordinates.	Journal Thread
CS-3	Canteen	Riddle pointing to 96 Pavilion (after password exchange).	Gitti (Stone)
CS-4	96 Pavilion	Instructions to go to HK Pond and message for password-protected PDF.	Chalk Piece
CS-5 (Bonus)	Civil Dept (Start)	MASTER KEY: Simple text = PDF password Coded text = ASCII decode for final destination. LOSING THIS = IMMEDIATE DISQUALIFICATION.	Identification Symbol

RULES & REGULATIONS

1 Team Setup & Configuration

- 1.1** A maximum of **5 teams** may participate in a single event. Each team must have a unique name; the starting letter of each team name must be different across all teams.
- 1.2** Each team shall have **at most 5 members**. A designated Team Leader must be identified before the event begins.
- 1.3** At the start, seniors will use a marker to write the team's first identity letter on the nails of **all team members and the leader** for identification throughout the game.
- 1.4** Team leaders must **share live WhatsApp location** with all supervising seniors throughout the event. A working data connection is mandatory.
- 1.5** Senior officials will be stationed at every designated checkpoint. Teams interact with seniors according to the protocol at each checkpoint only.

2 Conduct & Disqualification Rules

- 2.1** Teams must perform the specific task assigned by the senior at each station. This task is an official part of the game. **Teams that refuse a task or fail to complete it will be disqualified.**
- 2.2** **Absolutely no communication** between different teams at any point during the game. Sharing information, clues, or materials with rival teams is strictly prohibited.
- 2.3** No exchange of any physical materials — cheat sheets, tokens, stones, chalk, or any other item — between teams.
- 2.4** Every team member must actively participate in all activities. Diverting from the game or leaving the designated route without permission is not allowed.
- 2.5** **Losing any cheat sheet or token** will prevent the team from unlocking the next level. Losing the Bonus Card (CS-5) results in **immediate disqualification**.
- 2.6** Do not misbehave with seniors or judges at any point. Seniors are instructed to maintain impartiality and must not assist any team beyond their prescribed role.
- 2.7** Teams must not call seniors repeatedly for doubts. Applying independent reasoning is expected; excessive interruption of senior duties may lead to disqualification.

3 Tools & Technology Policy

- 3.1** Use of **mobile phones, Google Maps, ChatGPT, and AI tools** is permitted for navigation and decoding. However, phones may NOT be used during specific academic tests (dictation/MCQ at Alumni House).
- 3.2** Passwords on each cheat sheet are unique per team and must be memorised or carefully noted. Seniors also possess team-specific passwords for cross-verification.

- 3.3 Each cheat sheet has a unique identification symbol on the back (star, moon, tree, heart, etc.). Seniors will record which symbol corresponds to which team at the start.

4 Senior Officials' Responsibilities

- 4.1 Seniors must prepare **different passwords, riddles, tasks, and questions** for each team in advance. Balance is key — tasks should be neither too easy nor too hard.
- 4.2 All seniors must be part of a shared WhatsApp group and remain in contact throughout the event. When a team moves on, the current senior immediately informs the next senior via the group.
- 4.3 The live location of all teams will be shared in the senior WhatsApp group so every official is informed of each team's current position at all times.
- 4.4 Google Forms participation records must be shared in the group prior to the event start. All rules and doubt-clearing sessions must be completed before the game begins.
- 4.5 All cheat sheets must be prepared with identification marks on the back. After the first distribution, seniors must note and share which team received which symbol in the group chat.
- 4.6 Seniors must **not be friendly or assist** any particular team. They must maintain strict impartiality and follow the scripted interactions for each checkpoint.

JUDGING CRITERIA, SCORING & PRIZES

Winning Criteria

The primary winning criterion is completion time. The team that successfully completes all 6 steps, presents all required items, confirms the final password, and arrives at the Civil Engineering Garden first — wins the Treasure Traverse. However, a team that arrives first but is missing items will be placed on hold until all items are accounted for, allowing the next team to claim victory.

Criterion	Marks	Description
Completion Order	40	1st team to arrive with all items = 40 marks. 2nd = 30. 3rd = 20. 4th = 10. 5th = 5.
All Items Collected	20	Full 20 marks for having all 5 tokens + all remaining cheat sheets at the final gate.
Tasks Completed	20	All checkpoint tasks completed correctly and within time. Senior-verified.
Team Participation	10	All team members actively participated in activities and were present at each checkpoint.
Conduct & Sportsmanship	10	No violations of conduct rules. Respectful behaviour with seniors and officials.
TOTAL	100	

Awards & Recognition

Rank	Award	Prize	Additional Recognition
WINNER	Treasure Traverse Champion	Trophy + Cash Prize	Certificate of Excellence, Featured on ACE website
1st Runner-Up	Explorer Award	Trophy + Certificate	Merit Certificate
2nd Runner-Up	Navigator Award	Certificate	Certificate of Participation
All Teams	Participation Certificate	—	All participating members receive a certificate

Final Gate — Item Checklist (Senior's Master List)

☐	Nail marks	Unique team identity letter marked on nails of all team members at the start.
☐	Journal Thread	Tied to team leader's wrist. Received at Alumni House (CS-2).
☐	Gitti (Stone)	Small stone token. Received at Canteen (CS-3).
☐	Chalk Piece	Received at 96 Pavilion (CS-4).
☐	Buried Material	Dug from tree at HK Pond using PDF image clue (CS-5/PDF).
☐	Remaining Cheat Sheets	Any cheat sheets not exchanged at earlier checkpoints.

☐	Passwords	Team responds WIN-WIN to senior's BOOM-BOOM at the final gate.
☐	Team Leader Signature	Collected by senior from the winning team leader.
